

DEVELOPER: KEUDA

- EQUIPMENT:** Computer, laptop, iPad or smart phone
- LICENSES:** Microsoft Office
- OTHER:** Internet connection, TEAMS

- TYPE:** Online staff training CONCEPT
- TARGET GROUPS:** Whole staff, and/or depending on the content of each session e.g. especially pedagogical staff members

DESCRIPTION:

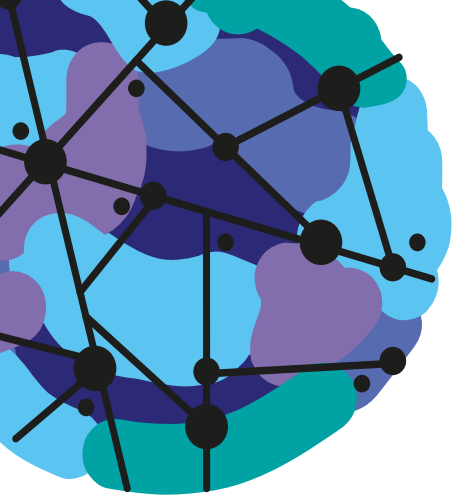

A first "Shared table" –TEAMS session, an idea of Principal Leinonen, was organized via TEAMS within 1 week after the covid lock-down. Currently, a session is organized ca once a month, each campus taking turns: 3 x 20min presentation by staff members on solutions they have tried out /developed in teaching or in their work. The aim is to share ideas and practices for everyday work.

For coordination, scheduling, and sending TEAMS –invitations a manager for learning environments co-operates with the principal. During the session, our principal or the campus manager is the chair. All sessions are recorded and stored in a digital library, where colleagues can watch them when convenient and needed.

WHY WE RECOMMEND THIS BEST PRACTISE:

In a big VET training provider, with busy schedules and several campuses, facilitating learning from one-another and supporting learning organization culture is demanding. For staff members, it is valuable to have a forum where they can share "can do" – solutions, experiments and experiences, where they get the "face" and contact info of relevant persons, where they can ask questions for clarification, and where they can show appreciation to their colleagues. For managers, it is valuable to get visibility for good practices, and to facilitate the learning organization.

Each time over 100 colleagues meet for 1 hour to share and learn from each other
